REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art does not disclose a method of removing hair from a live mammal including the steps of delivering a collagen cleaving agent beneath the surface of an area of the skin, allowing time for the collagen cleaving agent to cleave the collagen of the hair and removing the hair present in the treated area of skin. The collagen cleaving agent being a metalloproteinase or more specifically a collagenase. Prior art methods of hair removal teach the use of an acid to cut the hair at skin level and prior known uses for collagenase include breaking apart muscle and tendon fibers for other uses, therefore the use of a collagenase subcutaneously for hair removal is unique.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Included for further reference are: Okamura (3,625,811), Baines et al (5,026,542), Philpott (5,229,271), Ahluwalia et al (5,468,476) and Lee Bikini Bare from www.AmericaRx.com.
